## WHAT IS COACHE?

The Collaborative on Academic Careers in Higher Education (COACHE) Survey conducted by the Harvard Graduate School of Education.

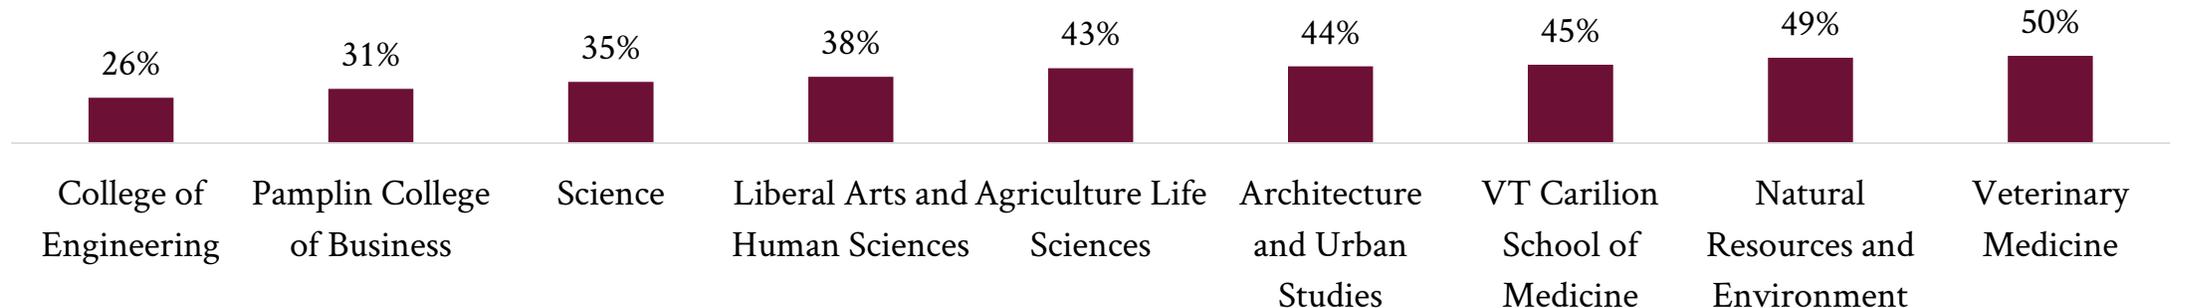

- > Intensive focus on **faculty careers**
- > Measures **institutional experiences** and **job satisfaction**
- > Provides national and peer **benchmarks**
  - Over 40,000 respondents from 112 universities nationwide

## COLLEGE RESPONSE RATES

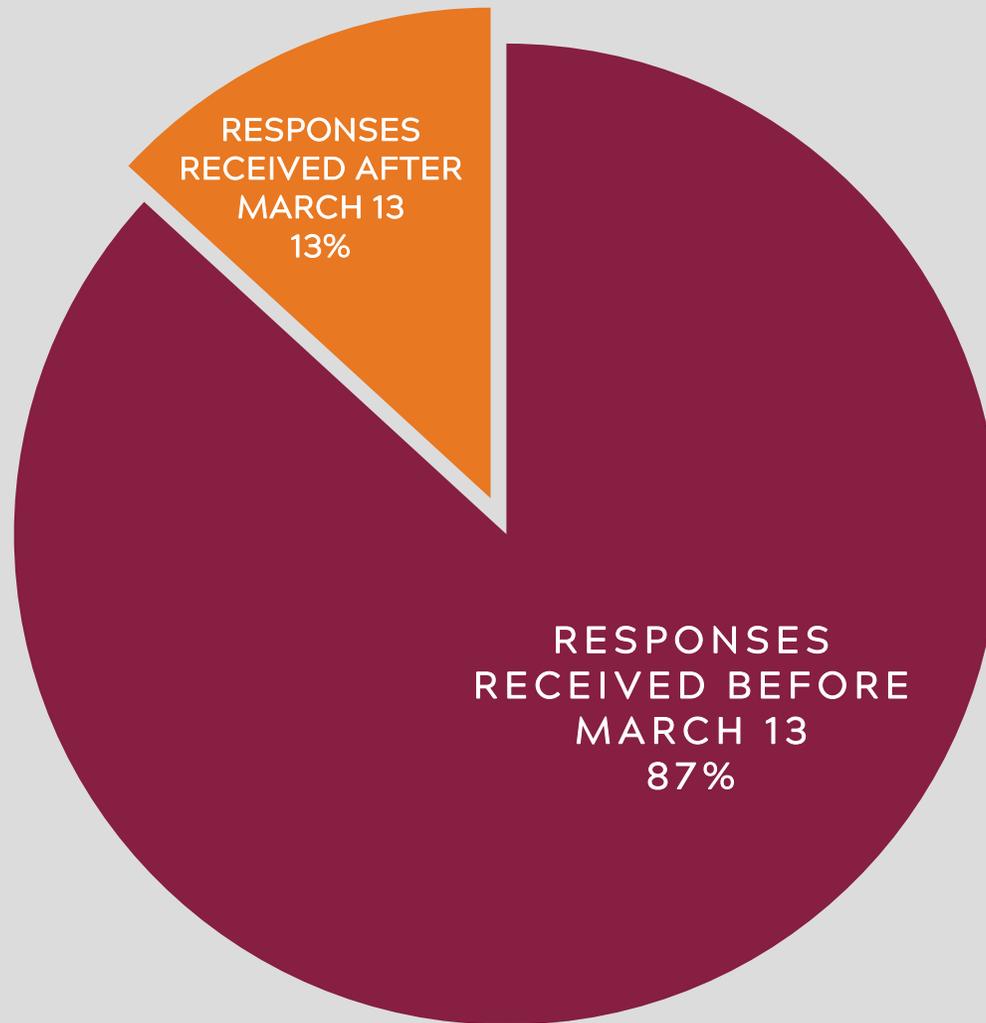

# SURVEY DEMOGRAPHIC DATA 2013-2020

The makeup of the respondents in the COACHE survey is an important consideration when reviewing results. This chart shows the makeup of respondents for each of the last 3 COACHE surveys.

\*2017 was the first year that Non Tenure-Track faculty were included in the survey.

# COVID-19 AFFECT ON COACHE RESPONSES

- > COACHE survey open February 11 to April 10, 2020.
- > 87% of VT responses received prior to March 13 COVID-19 shutdown.

COACHE analysts conducted an in-depth and statistically rigorous study of the responses received after the shutdown, and found that although there was some variation in responses, none were statistically significant.

## SELECTION PEER INSTITUTIONS

Based on the number of Virginia Tech faculty and other organizational characteristics, your comparison "**cohort**" includes 110 COACHE partners who identify as generally similar.

In addition, Virginia Tech selected five comparison institutions, "**peers**" in the report, to represent those most similar to us in the faculty labor market. Those peers include:

- > Iowa State University (2017)
- > North Carolina State University (2018)
- > Purdue University (2018)
- > University of California, Davis (2017)
- > University of Missouri – Columbia (2019)

Welcome to your COACHE Chief Academic Officer Report

[Watch Quick Guide](#)

By partnering with the Collaborative on Academic Careers in Higher Education, you have signaled a commitment to improve the faculty experience. Asking your faculty to participate in the Faculty Job Satisfaction Survey has already communicated your concern and support. With this COACHE report, you can engage them in advancing equity in faculty recruitment, retention, development and success.

Given hundreds of survey items disaggregated by race, gender, discipline, tenure status and rank for your institution, your comparison institutions, and all other partners in COACHE, our challenge is to synthesize, organize, and prioritize millions of data points without deciding for you which results are most important.

We are prescriptive only on this point: you are expected to use this report to engage faculty leadership, the senior cabinet, trustees or regents, institutional researchers, and other campus constituents. We designed your report to be distributed in parts or in its entirety.

This COACHE portfolio contains:

**Preview**  
A glimpse of your CAO Report - a beginning, not the end - designed to be printed and shared. Worksheets included in this preview help readers get a process of collaborative inquiry underway.

**Comparison Institutions**  
The five institutions you selected as "peers" and all institutions include in this report's definition of your broader "cohort".

**Response Rates**  
Rates of response for your institution, your selected comparison institutions, and your faculty labor market.

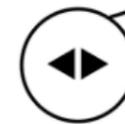

**Analyses and Visualizations**  
Our summary analysis with dashboards, item-level analysis, and faculty's qualitative opinions, altogether comprising the most important pages of your report. You will spend most of your attention here.

**Means and Frequencies**  
Maximum detail, including peer-by-peer results, percentages, counts, means and standard deviations for most items. Tables may be exported to CSV / Excel.

## GLOBAL SATISFACTION

Two survey questions provide insight into the overall satisfaction of faculty with their department and with Virginia Tech as a whole:

- > If a candidate for a faculty position asked you about your department as a place to work, would you recommend it to them,
- > If I had it to do all over, I would again choose to work at this institution.

This comparison shows Virginia Tech faculty responses to these questions compared to our COACHE peers and the COACHE cohort in total.

## NEXT STEPS

|||

### SHARE

Present the results to a wide variety of constituent groups around campus.

|||

### ANALYZE

Ask questions of the results to help inform ongoing work at the university and identify priority areas.

|||

### ACT

Use the results to help move forward initiatives, conversations, and action.

|||

### REVISIT

This is an iterative process. Check in with results to assess progress and pose new questions.

## QUESTIONS TO CONSIDER

- > What, if anything, surprises you about these results?
- > Which results confirm your perceptions of your institution? What initial questions do you have about the results underlying them?
- > What themes do you feel most warrant further scrutiny?
- > Which strategic priorities, faculty affairs initiatives, or other important institutional activities do your COACHE areas of concern bring into play?
- > What other groups' work might be informed by these results—who else do we need to share the results with?
