Virginia Tech Faculty Affairs

<https://faculty.vt.edu>

- **Our Vision:** Virginia Tech is a thriving community of world-class faculty and scholars.
- **Mission:** We cultivate and enable a campus and an environment that fully and transparently supports the professional success and well-being of all Virginia Tech faculty. We are a proponent for and supporter of programs, policies, and procedures that promote: scholarly excellence; faculty recruitment and retention; diversity, equity, and inclusion; professional growth; work/life balance; personal satisfaction; and faculty recognition.
- **Major Areas of Responsibility**
 - Recruitment, appointment, advancement, and retention
 - Professional growth, mentoring, leadership development, and faculty excellence
 - Academic life, job satisfaction, work/life balance, honorifics and recognition

Supporting Faculty Success ♦ Enabling Faculty Excellence

Path to Promotion: Discovery, Learning, and Engagement

- Tenure-track and Tenured
- Continued Appointment
- Collegiate Professors
- Instructors
- Clinical Professors
- Professors of Practice
- Research Faculty

Professional Development Opportunities

- Provost's Office & Faculty Affairs

- Tenure clock extension
- Modified duties
- Part-time employment
- Dual career
- Childcare
- Lactation support
- Retirement support

Research and Innovation at Virginia Tech

August 2022

RESEARCH AND INNOVATION
VIRGINIA TECH.

Roles and responsibilities

The Office of Research and Innovation bolsters the research enterprise through research services, support, and execution that help faculty, staff, and students plan, perform, and commercialize groundbreaking research.

- Catalyze growth through vision, guidance, and coordination
- Champion research programs and capabilities
- Provide institutional support for faculty to organize strategic research efforts
- Create and grow holistic industry-university partnerships
- Translate research discoveries into commercial products
- Support state-of-the-art infrastructure and accreditations
- Maintain the highest standards of research integrity
- Deliver effective and efficient research administration

Office of Research and Innovation: Structure

BUSINESS UNITS

- Animal Resources and Care
- Innovation and Partnerships / LINK + LICENSE + LAUNCH
- Postdoctoral Affairs
- Research Computing
- Research Development
- Scholarly Integrity and Research Compliance
- Sponsored Programs
- Strategic Research Alliances

OPERATIONS UNITS

- Electronic Research Administration
- Export and Secure Research Compliance
- Human Resources
- Information Technology
- Finance
- Marketing and Communications

INVESTMENT INSTITUTES

- Fralin Life Sciences Institute
- Institute for Critical Technology and Applied Science
- Institute for Creativity, Arts, and Technology
- Institute for Society, Culture, and Environment

EXTRAMURALLY FOCUSED INSTITUTES AND CENTERS

- Fralin Biomedical Research Institute
- Virginia Tech National Security Institute
- Virginia Tech Transportation Institute

INITIATIVES

- Commonwealth Cyber Initiative

Dive Deeper

A white drone with orange wingtips is flying over a green field. In the background, there is a farm with several buildings, including a large barn and a smaller structure. The sky is overcast.

SPECIAL RESEARCH SESSION

- Tomorrow, August 19
- 10:30 am – 12:30 pm

LEARN ABOUT

- Tools for finding and securing funding
- Support for planning and proposing research
- Compliant and ethical research support
- Maximizing impact of your results

We help faculty...

Improve student learning using research-based instructional practices
Enhance student success at VT and beyond with student-centered design practices
Be recognized and celebrated for innovation and excellence in teaching

Elements Faculty Activity System @VT

Elements Faculty Activity System Serves Multiple Needs

- To serve as a repository for the curation and sharing of faculty activity
- To easily submit scholarly works to institutional open access repository
- To communicate expertise and potential for collaboration

Latest Developments

- Elements is used by most colleges for annual Faculty Activity Reports (aka EFARS)
- Integrated with VT's open access scholarly repository VTechWorks to facilitate submission of OA works (pre-prints, presentations, etc.)
- Elements records feed Virginia Tech Experts, public profile system for faculty <https://experts.vt.edu>

Elements Links and Resources

- Elements login: <https://efars.provost.vt.edu/login.html>
- Getting Started with Elements:
<https://faculty.vt.edu/efars/getting-started.html>
- Elements workshops offered through the Technology Enhanced Learning and Online Strategies Professional Development Network (TLOS PDN)
<https://profdev.tlos.vt.edu>
- For more information on Virginia Tech Experts, see the detailed Library Guide at
<https://guides.lib.vt.edu/VirginiaTechExperts>

Publishing Support for Faculty

Peter Potter
Publishing Director
420 Newman Library
pjp33@vt.edu

Our Values

Virginia Tech Publishing started in 2017 but our history is rooted in a much deeper tradition. In 1989 the Scholarly Communication Project was established in Virginia Tech's Newman Library as a place to experiment with the technology to produce online scholarship in new and developing formats. In 2013-2014, Virginia Tech played a leading role in advancing the idea of a community dedicated to the field of library publishing, which resulted in the creation of the **Library Publishing Coalition**. In the years since then, the Library has continued to embrace the increasingly diverse products of research and scholarship, especially those that are more than just "paper online," including e-journals, interactive books, open educational resources, innovative digital projects, and audio visual materials.

In keeping with Virginia Tech's land grant mission, we believe in contributing the works we publish to the public commons through open access publishing while ensuring long-term access through the Library's preservation strategy. Our goal is to be the center of scholarly publishing activities and expertise at Virginia Tech and to raise the profile of VT scholarship.

We can help you:

- Find the right publisher for your monograph
- Prepare a book proposal
- Answer questions about copyright, permissions, & contracts

VIRGINIA TECH
PUBLISHING

We also publish books,
papers, reports, etc.

We can help you start a journal

- 13 active journals today
- 4 student journals

The screenshot shows the homepage of the journal 'Studies in Engineering Education'. The header includes navigation links: Home, About, Contact, Content, and Research Integrity. A search bar is located on the right. Below the header, the journal's title 'STUDIES IN ENGINEERING EDUCATION' is displayed next to a circular logo with orange, yellow, and purple segments. Social media links for Twitter and RSS are provided. The main content area features an 'About this Journal' section, which describes the journal as an international, open-access, peer-reviewed venue for high-quality research in engineering education. It also mentions the journal's focus on interpretive research paradigms and its commitment to supporting a vibrant vision of the field. A sidebar on the right shows a tweet from the journal's Twitter account, @journal_see, dated July 12, 2019.

About this Journal

SEE is an international, open-access, peer reviewed journal that provides a venue for high-quality research conducted in all settings and contexts relevant to engineering education, with an emphasis on contextually rich reflective discussions of issues and approaches important to engineering education researchers and practitioners.

SEE focuses on interpretive research paradigms and invites a wide range of studies that help expand the body of knowledge in engineering education, including ethnographic, anthropological, phenomenological, and other forms of empirical research, as well as literature reviews and theoretical or conceptual articles that seek to frame critical issues in the field. Studies can be conducted in any context relevant to engineering education, including K-12, higher education, classroom settings, and the engineering workplace.

To support an intellectually vibrant vision of the field, SEE encourages rich and thorough descriptions of all aspects of research, including theoretical frameworks, epistemological underpinnings, researcher backgrounds and perspectives, impacts of contextual factors in data collection, research quality, and other appropriate aspects.

To promote dialogue among scholars, the journal also welcomes respectful and productive commentary & response pieces that engage individual articles and authors in deeper discussions of the implications of the work.

THE
AMERICAN SOLDIER
IN WORLD WAR II

[View Project](#)

The American Soldier project led by Professor Ed Gitre in the Department of History allows users to browse and search over 65,000 pages of uncensored, open-ended responses handwritten by servicemembers, view and download survey data and original analyses, read topical essays by leading historians, and access additional learning resources. The project began in 2015, in 2017 it received a National Endowment for the Humanities Division of Preservation and Access planning grant, and a second implementation NEH grant in 2019. The project launched in 2021 with support from many collaborators, including Virginia Tech University Libraries and Virginia Tech Publishing.

VIRGINIA TECH
PUBLISHING

We can help you
produce a podcast

The screenshot shows the Virginia Tech Publishing website. At the top is a navigation bar with links: Home, About, Publications, Contact Us, and Research Integrity. A search bar is on the right. Below the navigation bar is the Virginia Tech Publishing logo. To the right of the logo are two buttons: "Join Mailing List" and "Publish with Us". The main content area features the "VOXhumanities" logo, which includes a stylized waveform. Below the logo is a banner that reads "PODCASTS FROM THE CENTER FOR HUMANITIES AT VIRGINIA TECH". Underneath the banner is a section titled "Vox Humanities" with a description: "Vox Humanities is a podcast focused on the advancement of human centered knowledge, pursued in conversation with experts whose work enhances public understanding of a complex world." Below this is a "Welcome to Virginia Tech Publishing" section with a paragraph about the publisher's mission. To the right of the welcome section is a "Recent Activity" section with a Twitter post from Virginia Tech Publishing (@VirginiaTechPub) about a new podcast episode, "Community Policing in Nigeria", and a "COMMUNITY" button.

Vox Humanities is a podcast focused on the advancement of human centered knowledge, pursued in conversation with experts whose work enhances public understanding of a complex world.

Welcome to Virginia Tech Publishing

We are Virginia Tech's digital-first, open access publisher. Based in the University Libraries, Virginia Tech Publishing (VTP) is committed to increasing the visibility, reach, and impact of research produced at the university. We publish scholarly and educational materials in multiple formats for wide dissemination and permanent preservation. In addition to full-service publishing, we offer a variety of specialized services to support the publishing needs of the Virginia Tech community.

SAIG Statistical Applications
& Innovations Group

How can we
help you?

<http://www.saig.stat.vt.edu>

A brief history of statistical consulting and collaboration at VT

1948

1949

1974

2010

2017

Questions we have answered in the past...

- How can we assess the broader impacts of my NSF grant?
- Why do lemurs eat dirt?
- What methods work best to help students in college Spanish classes learn the gender of irregular nouns?
- Which employees are most likely to be hired and retained?
- What is the repeatability and reproducibility of a1C (glucose) measurements from home meters?
- Which sequence and amounts of fertilizer will lead to higher crop yield?
- Which genotype of what amounts mosquitoes is more likely to successfully mate?
- Are underrepresented or majority engineering students more likely to participate in various activities?
- What are the underlying features that lead to pursuing a career in the construction industry?
- Is the laboratory staining test accurate for predicting genetic mutations associated with glioblastoma?

* FREE to graduate students, faculty, and staff in participating Colleges & Administrative Units.

Come early, come often!

To consult the statistician after an experiment is finished is often merely to ask him to conduct a post mortem examination.

-Sir Ronald Fisher (famous statistician)

DOs

- Visit SAIG as soon as you develop your research questions
- Expect to prepare for your collaboration
- Expect to explain your research question and associated terminology in plain English
- Bring us pictures, example papers, etc.
- Expect us to provide you prompt service and an appropriate solution as per our policies
- Consider giving acknowledgement or co-authorship opportunities where appropriate

DON'Ts

- Make your poor planning our automatic emergency
- Expect to throw data over the fence and have us to throw an answer back over
- Expect us to organize and clean your data for analysis
- Expect every collaborator to know every statistical technique, software program, etc.
- Forget about the academic cycle; we are staffed by students

SAIG Vision

Our vision is to be
the premier global statistical collaboratory
by solving diverse, relevant problems
while advancing University research partnerships
as we transform students into leading practitioners
of statistics and data sciences.
